Each month, this newsletter will spotlight one of the innovative startups incubated at IIMT Business Incubator Foundation, sharing their journey, challenges, and successes.

"THIS NOVEMBER, WE ARE THRILLED TO FEATURE **STUBBIO SOLUTIONS, TURNING AGRICULTURAL STUBBLE INTO BIODEGRADABLE TABLEWARE"**

STARTUP STORIES - STUBBIO SOLUTIONS

WHAT MAKES STUBBIO SOLUTIONS UNIQUE?

Stubbio Solutions was started with a simple but powerful belief — agricultural waste should not harm the environment when it can be transformed into something useful. While stubble burning and plastic pollution have severe environmental and health impacts in India, meaningful solutions have remained limited. Today, Stubbio Solutions works directly with farmers to collect stubble, convert it into fibres, and manufacture biodegradable tableware — including plates, bowls, cups, and packaging — that fully decompose within 60–90 days, reducing air pollution and plastic waste.

Stubbio Solutions, incubated at IIMT BIF, is a flagship startup creating sustainable solutions by transforming agricultural stubble into biodegradable products,

FROM FIELDS TO FUTURE: HARVESTING CHANGES

IMPACT AND VISION

Stubbio Solutions envisions a greener planet where agricultural waste becomes a source of value, not pollution. By preventing stubble burning, improving soil health, creating additional income for farmers, and producing fully biodegradable tableware, the startup turns waste into sustainable solutions.
